The Harris Satellite Video Receiver

Quality is Important.

A quality video receiver is silent and reliable, processing signals with no degradation. The sound and video produced by the Model 6522 Receiver is superb.

A quality video receiver must first select the best signal conditions under adverse conditions. The Harris Model 6522 delivers the best video, the best picture, the best sound.

A quality video receiver must be able to handle a wide range of signals. The Harris Model 6522 Receiver handles all signals, from the best to the worst, from the best to the worst.

Quiet Quality

FEATURES

Front panel, remote, local or remote control; automatic picture/contrast adjustment; dual conversion.

Financing Growth

Today's rapidly changing capital markets are making it increasingly difficult for cable television entrepreneurs to source start-up financing, acquisition financing and long-term, fixed rate refinancing.

We specialize in cable television financings, and have raised over \$300,000,000 for communications companies in recent years. This investment banking capability, coupled with over \$100,000,000 of available risk capital under our management, enables us to consistently deliver under all market conditions.

If yours is a company with a solid growth plan that needs innovative financing we would like to talk with you.

CABLE TOOLS

A CONSTANTLY EXPANDING SELECTION DESIGNED FOR CABLE SYSTEM CONSTRUCTION

Several reasons explain why so many cable contractors prefer Lemco tools.

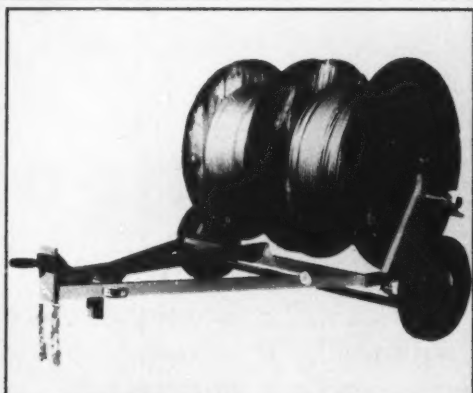

One is that Lemco offers the widest selection of quality cable tools on the market.

But there's more to it than that.

Lemco offers more because they design more, engineer more, and pioneer more.

In fact, this year Lemco will introduce nine new cable tools, tools that will make your job quicker, easier, and safer.

To learn more about Lemco's line of quality cable tools, call or write for our free catalog: 717-494-0620.

CABLEFILE/81

SYSTEM PROFILE

The System Profile is CableFile/81's listing of all the cable television systems operating in the United States and Puerto Rico. Where the information has been available, we have provided a complete listing of all the pertinent information about the cable system, including the local manager, number of subscribers, the miles of plant, basic and pay cable rates and the name of the pay program supplier. In cases where we were unable to obtain all the information, we have listed all the information that was available.

We have continued continued notating systems which accept advertising with the ● symbol. In addition, we have incorporated into the system profile the HBO, Showtime and HTN logos which appear above the listings of systems that offer these pay services to their respective subscribers (these are paid advertisements).

Below is a legend explaining all the possible entries for any given cable television system. Not all of these entries will appear for every system listed.

	Headend		County
	MODESTO/St Stanislaus HBO ●
